October 16, 2018

Reliable Controls Authorized Dealer, Lucon, Recipient of Platinum Awards for Green Building

Victoria, BC, Canada – Reliable Controls® is pleased to announce that Authorized Dealer, Lucon Automation Co Ltd., is the winner of a platinum award from the 2018 Asia Pacific Intelligent Green Building Alliance (APIGBA) in the category of Excellent Intelligent Green Building Systems.

The awards are classified into four types: “Design”, “Performance”, “Renovation”, and “System”. Lucon’s project, *Power SCADA and Integrated Building Automation System* was recognized in the “System” category.

Two other platinum award winners promoted intelligent building using the Reliable Controls MACH-System™: the Taiwan Power Company won the “Renovation” platinum award and the Chicony Smart Green Building won the “Design” platinum award.

The objectives of the Alliance are to promote the exchange of intelligent green building technology and knowledge among Asian countries, to demonstrate the cutting edge intelligent green building technology developed in the Asia Pacific region, and to provide a safe, healthy, convenient, comfortable, energy-saving and sustainable living environment for people in Asia and worldwide.

Congratulations to Lucon Automation!
