Reliable Controls Releases SMART-Sensor™ with VOC Sensor

Victoria, BC, Canada – Reliable Controls is pleased to announce that SMART-Sensor and SMART-Sensor Electronic Paper Display (EPD) devices are now available with an optional volatile organic compound sensor.

The SMART-Sensor is a complement to any room and delivers a modern networked-sensor solution that allows you to connect with up to 10 configurable parameters related to your space.

SMART-Sensor devices can be ordered with a volatile organic compound sensor that provides relevant air quality measurement for the comfort and health of building occupants.

VOC sensor features include the following:

- 0–32,767 ppb range.
- Resolution: 1 ppb (0–2,008 ppb); 6 ppb (2,009–11,110 ppb); 32 ppb (11,111–32,767 ppb).

- Accuracy typically 25 percent of measured value.
- Automatic background calibration.
- Automatic humidity measurement.

Backed by an industry-recognized 5-year warranty and a worldwide network of certified Authorized Dealers, Reliable Controls SMART-Sensors with VOC now provide building operators with a solution to measure and regulate occupants' exposure to harmful gases.

Achieve better health by incorporating VOC sensing into your next build or retrofit.
