

PROFORMA

CLEVELAND, OHIO, UNITED STATES

INTRODUCTION

With more than 750,000 clients worldwide, [Proforma](#) is a marketing solutions provider for a range of industries, including ecommerce, health care, hospitality, industrial, educational, real estate, retail, tech, and more. Proforma offers printing services, branded merch, custom packaging, uniforms and apparel, digital media services, and smart communications through an extensive global network of manufacturers and suppliers.

PROJECT DETAILS

Authorized Dealer [Control Concepts Ohio](#) installed a Reliable Controls building monitoring system during a retrofit of Proforma's worldwide support center in Cleveland.

Control Concepts Ohio commissioned a MACH-ProWebSys controller for its BACnet compatibility and flexibility in terms of future system expansion and mechanical plant control. Two SMART-Sensor LCD devices monitor temperature and humidity in the building's server rooms. Control Concepts Ohio installed a SMART-Sensor EnOcean Accesspoint device on each of three floors that communicates wirelessly with three SPACE-Sensor EnOcean devices per floor.

Control Concepts Ohio chose a wireless solution for this project because of its low cost of entry and high-tech monitoring capabilities. Wireless deployment was seamless and provided immediate savings in labor costs while empowering Proforma with everything it needed.
