FREELY PROGRAMMABLE CONTROLS

SMART-Space™ CONTROLLER

Custom Standalone Controller:

SMART-Space Controller [SSCE]

Up to: 4 inputs [3 universal and 1 dedicated temperature sensor]

Up to: 4 outputs [2 jumper selectable to be universal or relay, and 2 dedicated relay outputs] | real-time clock and backup | Humidity sensor

Required supporting sensors

[Temperature, Humidity, CO₂, Flow, Pressure, etc.]

Your system should operate according to your needs. The SMART-Space™ Controller is an ideal solution for small systems where the sequence of operation is too complex for a packaged standalone controller.

Modulate cooling and heating simultaneously to control humidity while maintaining supply air temperature at setpoint.

Modulate, PID control of two-pipe fan coil units.

Take ownership of your personal environment with the Reliable Controls SMART-Space Controller, a fully programmable BACnet® controller with multi-sensor capability.

Today's systems place a strong emphasis on monitoring and controlling the many attributes of indoor environmental quality. With the Reliable Controls MACH-System®, many excellent options exist to achieve this goal. Within a single wall mounted device, the **SMART-Space Controller** offers: space temperature, humidity, carbon dioxide, occupancy, setpoint adjust, degrees Celsius and Fahrenheit selection, back-light display, additional inputs and outputs, and connection to any other sensor anywhere in the building.

For more than 30 years, Reliable Controls has been committed to excellence in the building controls industry. Our business objective is to be the best in terms of quality, dependability, and customer satisfaction. With our worldwide network of more than 200 Authorized Dealers in 30 countries around the world, Reliable Controls provides simple, flexible, and sustainable products and solutions. Every Reliable Controls Authorized Dealer is factory trained and tested to ensure the highest level of competency. Our Authorized Dealers provide you with exceptional local service for system design, quotations, installation, programming, commissioning, and after-sales support. Look for the Reliable Controls Authorized Dealer logo, and be assured of long-term, confident performance and complete satisfaction.
